Los Disco Duro returns with their 4th single on Discos Más and this time it's on **green vinyl** with a red label...just in time for the holidays!

The A-side is an updated version of the **Willie Colon and Hector Lavoe** salsa classic "**La Murga**" done in typical Los Disco Duro fashion, complete with heavy **synthesizer and vocoder**.

The B-side is an original **electro-rap** composition en **Español**. The **808** heavy track has that signature **Los Disco Duro** latin percussion and ends in a DJ friendly on-beat locked groove.

Side B is also an inside out cut at 33RPM that starts near the label and plays toward the edge until it gets to the locked groove which will play forever... There is a hidden locked groove on the B-side as well.
